Glyphosate herbicide

Relentless Weed Control™

41% glyphosate herbicide, fully loaded with 15% surfactant.

Key Alecto benefits.

- Provides consistent, cost-effective, relentless weed control.
- Approved for use on Roundup Ready® crops, including corn, cotton, soybeans and canola.
- Kills weeds down to the roots.
- Rainfast almost immediately under recommended application conditions.
- Readily available in inventory when required.
- Backed by knowledgeable technical support.

Key product features.

- Premium quality-assured herbicide.
- Fully loaded with 15% surfactant to maximize performance of the glyphosate isopropylamine salt.
- Stringent quality control in our Houston, Texas formulation facility ensures outstanding product quality and precise package volume and product labeling.
- Applicator friendly. Alecto features a “Caution” label only.
- Available in 41% and 50.2% concentrations. Both concentrations are available fully loaded with 15% surfactant or zero-loaded with no surfactant.
- Available in 1-gallon, 2.5-gallon, 30-gallon, 275-gallon, and 4,500-gallon (bulk) package sizes.
- EPA-registered.
- Formulated in the USA.

Promoting growing partnerships.™

Treat Roundup Ready® crops with Alecto™—the most cost-effective quality-assured product on the market today. And treat your bottom line to substantial cost savings compared to Roundup®.

Alecto is backed by solid technical support. We're dedicated to helping you enjoy greater success and cultivating mutually beneficial partnerships.

Kills weeds consistently and relentlessly for “burn down” or “over the top” applications.

Alecto delivers consistent, relentless weed control for Roundup Ready crops, such as corn, soybeans, canola, and cotton. Alecto is a fully loaded 15% surfactant 41% glyphosate. (This equates to 4 lbs. per gallon of the isopropylamine salt.)

Partner with your Alecto distributor and discover the most cost-effective quality-assured weed-control program available today.

Use cost savings as a significant contributor to paying “tech fees.”

The performance obtained and the money saved by using Alecto can help you pay a substantial portion of grower “tech fees” associated with planting Roundup Ready crops.

Alecto offers optimum value when compared to Roundup brands or generic glyphosates.
